

# 2022 Patriot Tour

## Honoring America's Military Members

**One American Flag 110 DAYS 14,500 Miles**

Every year, the Patriot Tour organizes a national gathering that honors and pays tribute to all those in the American Armed Forces while raising money for those veterans disabled during their service.

What is the Patriot Tour? The tour is a fundraising event which entails the passing of an American Flag from one escort to another throughout the country for 110 days. Over 14,500 miles through 48 states, the flag is transferred until it completes a full circle back to Beaver Dam, Wisconsin.

Heritage Riders and E. Montgomery American Legion Post #81 is proud to participate and support this event which helps to provide financial support to those who have bravely served in our Armed Forces.

A \$10 donation is being requested for this ride. Any additional donations for this event are greatly appreciated.

**100% of the money collected will benefit NH Veterans and their families.**
