

Looking to finally put some miles on that motorcycle?

Heritage Riders Mission

Heritage Riders is a family oriented, non-political, non-profit social organization established and assembled with the purpose and mission of riding our motorcycles and having fun. We also promote responsible motorcycling and related activities for our members and their families. We proudly adhere to the standards and operating policies of our By-Laws.

Many members of Heritage Riders were members of Concord HOG chapter 2756, established in 1990. The chapter had a strong tie to Heritage Harley-Davidson, holding monthly meetings on site and volunteering at community charity events. Strong bonds of friendship and support were forged over the HOG chapter's 30+ years in existence, and many wondered how to continue that amazing journey.

Enter Heritage Riders! As our mission statement says, we are a family oriented, non-political, and nonprofit social organization. We just want to ride, have fun, and support our community!

Heritage Riders centers the riding around many events and destinations. We've gone bowling, rafting, hiking, target shooting, and yes, even enjoyed our fair share of ice cream. Above all, we are all about riding motorcycles together. If that seems like your idea of a good time, come check us out.
