

2024 Patriot Tour

Honoring America's Military Members

One American Flag 115 DAYS 15,000 Miles

Every year, the Patriot Tour organizes a national gathering that honors and pays tribute to all those in the American Armed Forces while raising money for those veterans disabled during their service.

What is the Patriot Tour? The Patriot Tour™ is the ceremonial passing of one American Flag through all 50 states. The Tour spans 15,000 miles and takes 115 days to complete. The flag is traditionally transported on the back of a motorcycle. The flag is transferred until it completes a full circle back to Derby, KS.

Heritage Riders and E. Montgomery American Legion Post #81 is proud to participate and support this event which helps to provide financial support to those who have bravely served in our Armed Forces.

A \$10 donation is being requested for this ride. Any additional donations for this event are greatly appreciated.

100% of the money collected will benefit NH Veterans and their families.
